

Co-op education ad campaign recently initiated

The EPOC Office at Gallaudet will be organizing a task force to help the College reap the benefits from this year's Advertising Council's National Campaign on Cooperative Education.

Representatives from admissions, alumni relations, public relations, development and other departments will be asked to serve on the task force to develop ways Gallaudet can capitalize on the increased public awareness of co-op programs in general. More specifically, Gallaudet's task force will focus on how high school students—who are the target audience for the campaign—can benefit from Gallaudet's EPOC program. "The entire faculty, staff and student population must be well informed in order to be able to answer questions about our program," explained Anne Nissen, assistant director of EPOC. She said she will be meeting next month with officials of the campaign to specify Gallaudet's role in the campaign.

Slated to hit the media in June 1985, the campaign will advertise on television, radio, billboards and in print media. About 30 million dollars will be spent on advertising the first year alone.

An article recently published in an advertising newsletter stated that the theme of the non-profit council's major 1985 campaign will be cooperative education and its potential to counter the productivity decline in the U.S. The National Commission for Cooperative Education was selected from about 500 applicants to be the council's "client" for the year.

According to a brochure about the

Board names library after Merrill

The Gallaudet Board of Trustees voted in the executive session of its January meeting to name the Learning Center in honor of the College's fourth president. The Edward C. Merrill, Jr. Learning Center will be dedicated on Thursday, March 14, 1985.

Immediately following the dedication outside the Learning Center that afternoon, Merrill's portrait, a gift of Gallaudet alumni, will be unveiled in the Chapel of Chapel Hall. A reception open to the campus community will follow the unveiling in the Chapel.

Business of the meeting of the full Board included the approval of a resolution of appreciation to Rex Rainer for his service as a member of the Board. Rainer, who is the director of the Center for Industrial and Applied Research at the University of Alabama, Birmingham, resigned as of this month. He served on the Board for one year.

Board Chairman Jane Bassett

The campus was blanketed in white after the recent snowfall. Above, students make their way to class and, below, David McGuinness arrives for work.

Department of Television, Film and Photography producing new programs

The Department of Television, Film and Photography has begun production of a number of new programs, including a monthly program entitled "President Lee's Forum."

The department was formed Oct. 1, 1984, combining what was the academic Department of Visual Media and the Gallaudet College Television Studio. As such, the department—under the School of Communication—includes both a 30-credit hour bachelor of arts program for undergraduate students and a professional production unit.

Faculty and staff work together to train students and to develop instructional and informational television and film programs for campus, local and national audiences. Students are involved in every phase of production—from pre-production planning to post-production meetings.

While the department is continuing to respond to campus requests for work and captioning programs, it has also established several new programs in recent months.

Gallaudet President Jerry C. Lee is the first College president to use television as a means of communicating with the campus community on a regular basis. "President Lee's Forum" is designed so that he can discuss issues of importance to Gallaudet.

The program first aired last month. This month's program will be devoted to discussion of the Master Plan. It is scheduled to air Feb. 4, 5 and 6 beginning at 9 a.m. on channel 33 of the campus cable system.

According to Marin Allen, interim chair of the Department of Television, Film and Photography, the program will use a variety of formats. The program's length will vary as well according to the needs of the message, she explained.

In other areas, production is now under way for the February edition of "Deaf Mosaic," a magazine program for hearing impaired individuals around the nation. It first aired in the fall under the title "Images."

The department has also begun to televise some of the College's men's and women's home basketball games, and will use student color commentators at half-time.

Games to be broadcast will include the men's game against Germantown College Monday, Jan. 28 at 5 p.m.; and a doubleheader on Tuesday, Feb. 5, with the women's team playing St. Mary's at 6 p.m. and the men's team playing St. Mary's at 8 p.m. The women's game against Johns Hopkins will be broadcast Saturday, Feb. 9 at 7 p.m., as will the men's game against Anne Arundel Community College on Monday, Feb. 11 at 7 p.m. The women's CWAC Tournament will also be televised on Saturday and Sunday, Feb. 23 and 24. All of the games will be broadcast on channel 33 of the campus cable system.

In addition, the department is gearing up for a weekly student news program, which is scheduled to begin next month. The set is now being built and students are preparing formats for the program.

The department is also assisting with instructional projects requested by faculty members. On one such project, the department is working with Sam Trychin of

continued on page 4

The Gallaudet College Board of Trustees met on campus earlier this month, with the Board's final session on Jan. 17 moved to an earlier hour as a snowstorm and record-breaking cold weather descended on the area.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline Program

2/1/85	NIA: Aging Research
2/1/85	DCHC: The Meaning of Work; Humanities and Women; Humanities and Urban Life; Humanities in the Schools
2/15/85	ED: Enhancing Instructional Program Options Projects
3/1/85	ED: Cooperative Agreements for Deaf-Blind Children and Youth
3/1/85	NIHR: Innovation Grants
3/1/85	NCHSR: Health Care Technology Research
3/1/85	NIA: Older People and Social Institutions
3/1/85	NIOSH: Research and Demonstration Grants
3/1/85	NIMH: Child Mental Health Research/Training
3/1/85	NIMH: Research on Stress Reactivity in Adolescence

3/15/85	ED: Student Initiated Research Projects
3/21/85	ED: Training Personnel for the Education of the Handicapped
4/2/85	ED: Special Population/Handicapped Projects
4/8/85	ED: Innovative Programs for Severely Handicapped Children Program
4/15/85	PHS: Adolescent Family Life

Educational equity

Gallaudet has received an award of \$66,155 from the Department of Education's Women's Educational Equity Act Program for a one year project. The project, under the direction of Barbara Bodner-Johnson, is being funded from Dec. 1, 1984 through Nov. 30, 1985.

Entitled "Attaining Equity and Excellence in Postsecondary Classroom Interaction of Deaf Students," the project will research, develop, implement, evaluate and disseminate a faculty development model program and materials. The goal of this project is attainment of sex equity and excellence in postsecondary classroom interaction for deaf students.

For more information, call Barbara Bodner-Johnson at Gallaudet's Department of Education at x5400.

Lee plans trips to meet with alumni

Gallaudet President Jerry C. Lee is planning to visit five regions of the country this year to meet with Gallaudet alumni. The visits, which will begin this spring, are designed to bring alumni up to date on the changes taking place at Gallaudet. In addition, Lee will share information about the College's long-range plans and will get input from alumni on the new Master Plan.

Lee will visit Chicago, Texas, southern California, New York and Virginia. He will be accompanied by Jack Gannon, executive director of the Office of Alumni Relations and Advancement, Merv Garretson, special assistant to the president, Robert Davila, vice president for Pre-College, and Mal Grossinger of the newly established Enrollment Management Office.

"Our alumni are a very important part of our mission and we are definitely going to involve them in our plans as we move toward excellence," Lee said. "Alumni involvement in every aspect of this College is very important to us as we shape the future of this unique institution."

Gannon and Mary Anne Pugin, coordinator of Alumni Outreach Programs, will coordinate the upcoming visits.

Correction

The Hechinger store, located at Hechinger Mall in Northeast Washington, has installed a TDD line. The number is 398-1111. It was inaccurately reported in a previous *On the Green* that that number served the mall.

Serendipity Library Bits & Pieces

Dissertations by Carolyn Jones

Without purchasing a dissertation from University Microfilms there can be difficulties in obtaining dissertations. Interlibrary loan is not usually a help because most universities will not loan their dissertations on interlibrary loan. However, there's more help available than you may realize.

If the desired dissertation concerns deafness, the Gallaudet library should have it. We have a standing order with University Microfilms to purchase all such dissertations. Every now and then we find that some have slipped through the computer cracks but, in the main,

those dissertations should be here. Locate them through SIRE, the comcat or the card catalog.

Secondly, the Library of Congress has the whole University Microfilms collection. These dissertations are not included in the LC catalogs and locating their special room takes a little guidance. So when interested in a dissertation on something other than deafness, hopefully knowing the author and title, ask a reference librarian to guide or give you instructions to their dissertation room.

Between these two collections, we hope that you will be able to find any dissertation that lures you to read it.

The Development Office sponsored a luncheon last month at "Ole Jim" to honor the winners of the Lillian Gourley Rakow Creative Writing Contest. The lunch also served to recognize the other contestants and thank the contest judges. The contest was sponsored by the College's English Department. The senior winner was Douglas Montalbano, who won \$1,500; the junior winner was Lisa Wellander, who won \$750; and the sophomore winner was Melanie Wilding, who won \$500.

General campus announcements

- The Counseling and Placement Center, in conjunction with International Business Machines, Inc., will sponsor the annual IBM Career Opportunities Night on Thursday, Feb. 7.

Jim Sewell, data processing operations manager, and Gerald Kluck, a programmer and 1984 Gallaudet graduate, will speak. Both are working at the IBM office in Raleigh, NC. Topics of discussion will include the IBM purpose, career path and opportunities.

The meeting will begin at 7 p.m. in the Ely Center Auditorium. A reception with refreshments will follow.

All students, alumni and staff are invited to attend. For more information, contact a placement counselor at x5638.

The Counseling and Placement Center is a unit of Student Affairs.

- MSSD next month will host an Open House Weekend for prospective students and their families. The weekend, scheduled for Feb. 15-17, is designed to introduce them to the programs offered at the high school.

During the weekend, students and their families will be able to observe classes, talk with teachers and participate in presentations about MSSD. Parents of students now attending the school will also be on hand to share their experiences.

Weekend participants will be given tours of Gallaudet College and Washington, D.C.

- "Recreation, Anyone?" classes will begin Feb. 11. Registration for the classes will be held the week of Feb. 4 at noon at the Snack Bar at Ely Center and the College Dining Hall.

- The information line number is x5000, not x5100. Extension 5100 is the number for both the Office of Alumni Relations and Advancement and the Public Relations Office.

- There are two toll-free phone numbers persons can call for information and assistance from Alexander and Alexander, the company handling Provident General Automobile Insurance. The representatives are Rita Temes and Dotty Mesta.

The number in Washington, D.C. and Virginia is 800-638-2562 and the number in Maryland is 800-492-1349. The numbers are for both voice and TDD calls.

Brochures and quote forms are available in Room 7 of College Hall.

- Suburban Bank's Customer Service Department has installed a TDD line. The line is in operation Mondays through Thursdays from 8:30 a.m. to 4:30 p.m. and on Fridays from 8:30 a.m. to 8 p.m. The phone number is 270-7081.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College receive substantial financial support from the Department of Education.

Crimebusters

Tip of the Week

Lost or stolen work keys can create major problems. If lost or stolen work keys are in the hands of the wrong person it creates numerous opportunities for theft.

The Department of Safety and Security has several rules to help prevent the loss or theft of keys. They are as follows:

- Do not keep work keys in or on your desk. Keep your work keys with you at all times while at work.

- Do not loan your work keys to others. If they lose the keys, you are still responsible for replacing the keys.

- If your keys are lost or stolen, report it immediately to the Department of Safety and Security at x5555.

Calendar of Extension Events

The following extension programs are being planned throughout the United States. For more information about upcoming events, contact the campus sponsor or the Office of Extension Programs. If you plan to give any off-campus presentation, workshops or courses on behalf of Gallaudet, please contact Continuing Education at x5599.

Twenty-five employees serving on advisory groups

Twenty-five employees will serve on four presidential advisory committees, meeting regularly with Gallaudet President Jerry C. Lee to share ideas and concerns.

The advisory groups will replace the College Council which was abolished last year.

The four advisory groups are a Staff Advisory Committee, a Collegiate Faculty Advisory Committee, an MSSD Faculty Advisory Committee and a KDES Faculty Advisory Committee.

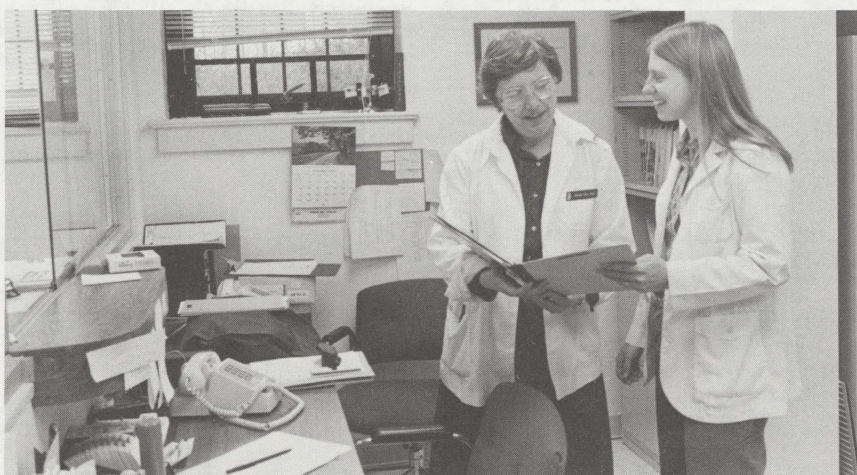

Members of the advisory committees are listed below.

Five persons—Gerri Frank, James Becker, Bob Hahn, Priscilla Krisman-Glenn and Susan Watson—will serve on the Staff Advisory Committee. Frank will represent the President's Office, Becker the Division of Administration and Business, Hahn the Division of Pre-College Programs, Krisman-Glenn the Division of Academic Affairs and Watson the Division of College Relations.

Five faculty members will serve on the Collegiate Faculty Advisory Committee. Robert Johnson, a professor and chairman of the Department of Mathematics and Computer Science, Ausma Smits, an assistant professor in the Department of History, James Fernandes, an associate professor in the Department of Communication Arts, and Ann Spragins, an associate professor in the Department of Psychology, will serve on the committee. Catherine Ingold, an associate professor and chairman of the Department of Romance Languages, will serve as an ex officio member of the committee.

Seven faculty members from MSSD make up the MSSD Faculty Advisory Committee. Committee members are Twila Ness, Beth Benedict, Ruth Ann Hutchinson, Larry Berke, Janet Kurtz, Fred Bone and Charles Reisinger.

Members of the KDES Welfare Committee will serve as the KDES Faculty Advisory Committee. On that committee are: Pamela Luft, Sharon Wood, Sarah Raymond, Debbie Cushner, Debbie Nussbaum, Marcine Thomas, Martha Manson and Gail Larabee.

Susan Heil and Doneby Smith at the infirmary at the Northwest Campus.

Among Ourselves

Catherine Ingold was elected to a three-year term on the Executive Committee of the National Collegiate Honors Council (NCHC). She is the immediate past president of the Northeast Region of the NCHC.

James Pickett, director of Sensory Communication Research, spoke on signal processing during a symposium entitled Cochlear Implants in the Treatment of Profound Hearing Impairment. The symposium on audiological advances, medical treatment and rehabilitative therapy for deaf persons was sponsored by the Children's Hearing Institute of the Manhattan Eye, Ear and Throat Hospital and was held Nov. 3 and 4.

Bob Johnson and Scott Liddell of the Department of Linguistics participated in a colloquium entitled Evidence for Sign Language Phonology which was held during the annual meeting of the Linguistics Society of America. The meeting was held in Baltimore, MD, on Dec. 28.

Ceil Lucas of the Department of Linguistics and Clayton Valli, a graduate student in the Department of Linguistics, presented a paper jointly at the same meeting. The paper was entitled "Predicates of Perceived Motion in ASL."

Merv Garretson, special assistant to the president, has written a book of poetry. The book, entitled "Words from a Deaf Child and Other Verses," was published late last year.

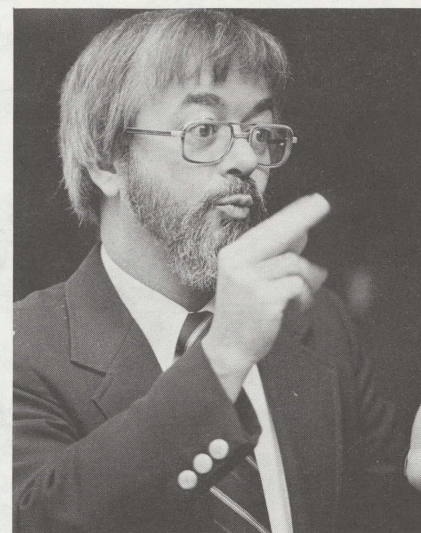

Richard Meisegeier and Catherine Ingold attended the annual conference of the National Collegiate Honors Council Oct. 24-26 in Memphis, TN. At that time, Ingold gave a presentation on "Honors in a Special Purpose Institution: The American Educational Dilemma in Microcosm."

Kathy Cooper of the Department of Audiology gave a presentation during the Nov. 19 meeting of the American Speech and Hearing Association in San Francisco, CA. Her topic was "ABR Latencies to Bone Stimuli on Normal Adult Listeners."

Gilbert Delgado and Yerker Andersson presented papers at the First National Conference on the Habilitation of Deaf Adolescents and Adults Nov. 27-30 in Bogota, Columbia.

Andersson's paper was entitled "The Social and Cultural Aspects of Deafness." Delgado's paper was entitled "Beyond the Norm—Social Maturity and Deafness."

The conference was organized by FENASCOL, the Columbian association for deaf persons.

James Madachy is the dean of the College of Arts and Sciences.

Genetics Services Center established

A Genetics Services Program for hearing impaired persons and their families has been established at Gallaudet. The Genetics Services Center can provide genetic screening and evaluation, diagnosis and counseling, and referral and follow-up services to members of the Gallaudet community and their families. Staff members will also answer questions about deafness on such matters as causes and why some families have many deaf members and others have only one.

Genetics clinics are held once a month with physicians from Children's Hospital and the Medical College of Virginia.

In addition to diagnostic and genetic counseling services, the staff of the Genetics Services Center hopes to provide lectures and seminars on campus concerning deafness and genetics. Those lectures will include information on the basic principles of human genetics and the process of genetic evaluation and counseling and provide examples of specific kinds of genetic deafness.

The Center is located in Trailer One, which is located behind Fay House. Anyone interested in arranging for genetic evaluation and counseling should contact Kathleen Shaver or Maria Shaffer at x5030. All contact with the Genetics Services Center is confidential.

Ad campaign

continued from page 1

ad campaign, its potential to further the development of cooperative education is tremendous. It is expected to increase the number of applicants to colleges and universities offering co-op programs. The campaign is also expected to have a major impact on admissions offices, which can expect enhanced enrollments. Co-op offices will find it easier to develop employer participation.

The Advertising Council is a volunteer group of advertising agencies which creates public service advertising free of charge for clients that it believes are addressing an important problem in American society. The council began as the War Advertising Council during World War II and helped make U.S. Savings Bonds a success. Among its other successful campaigns are, "A mind is a terrible thing to waste," "Smokey says: Only you can prevent forest fires," and "Take a Bite Out of Crime."

A woman makes her way back across Kendall Green in front of the Learning Center.

Volleyball, soccer teams forming as Recreation program offers league play

The Campus Recreation program will offer Gallaudet employees an opportunity to play soccer and volleyball on a regular basis beginning next month.

A new approach in league play is being attempted this semester with the assistance of Jean Buchanan and Joanne Dimirkan, two Gallaudet staff members.

To add some competition as well as to ensure regular games with a minimum of no-shows, interested parties are invited to form their own teams and to register as a team. Four to six persons per team are recommended to again ensure ample regular play, but larger teams are permitted.

Buchanan and Dimirkan, as facilitators of volleyball and soccer respectively, will make and post a league schedule. They will also be responsible for having the equipment ready for play and for clarifying rules as needed.

Volleyball games will be played in the Field House at noon on Mondays and Wednesdays. Soccer will be played in the Hughes Gym and outdoors (according to weather and participant preference) on Tuesdays and Thursdays at noon. The team captain can register the team during the week of Feb. 4 between noon and 1 p.m. at either the Ely Center Snack Bar or the

College Dining Hall. All members of the campus community are eligible to play. Provided the required number of teams (four) are registered, play will begin the week of Feb. 11.

For more information or to make suggestions, call Jean Buchanan (x5682, Physical Education Office, Field House) or Joanne Dimirkan (x5174, Cashier's Office, College Hall basement) or Gina Oliva, director of Intramurals and Campus Recreation (x5362, Mondays through Thursdays from 1 to 4 p.m., Hughes Gym) if you have any questions.

New TV programs now in production

(continued from page 1)

the Psychology Department on a tape about biofeedback and relaxation procedures. The department is also working on a project with Continuing Education to develop a telecourse on parenting deaf children. Another project has the department working with researchers at KDES on a study of parents and deaf infants.

The department has also put together a news piece on the World Games for the Deaf. The piece was already aired on campus but will be shown again in the near future.

A Physical Plant employee clears the sidewalk in front of EMG of snow after the most recent snowfall.

FOR RENT: One bedroom with full bath available for rent in house in Capitol Hill area. Immediate occupancy, rent negotiable. Black daschund puppy for sale. Ten weeks old. AKC papers. Must have a home. Call Sandi at 737-2468 evenings and daytime 722-5844 or Char evenings at 464-8969 and day 724-4325. All numbers are TDD.

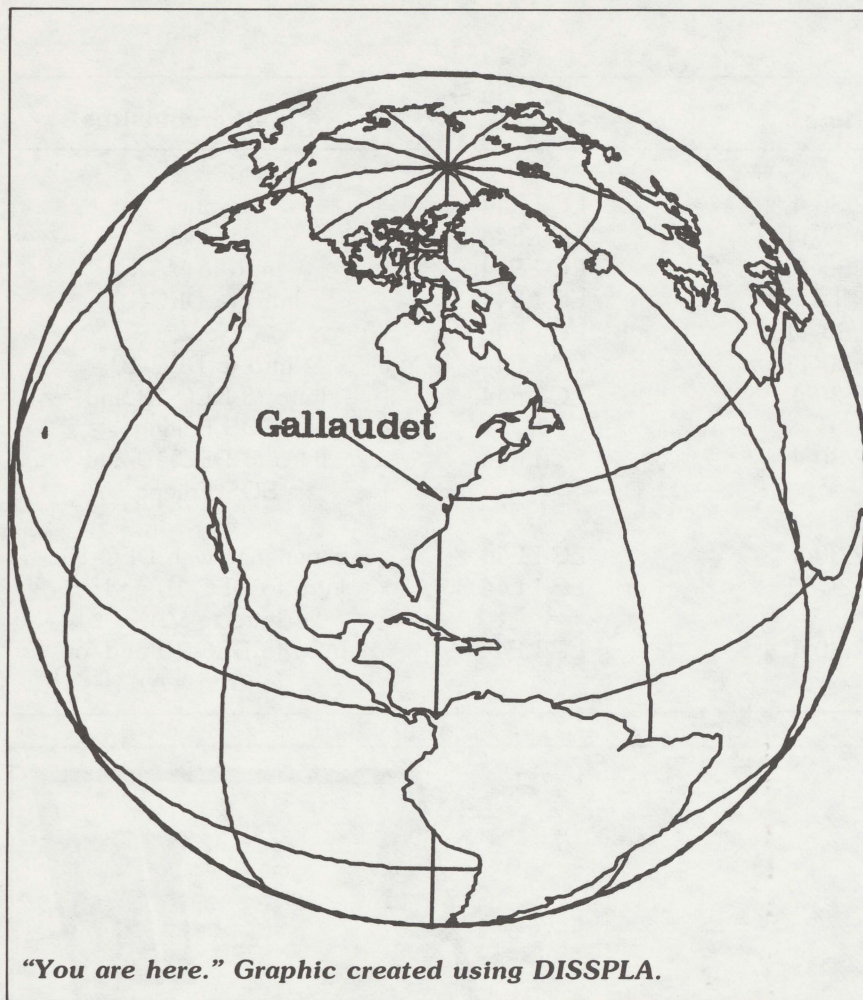

FOR SALE: Superphone: Two years old, \$450 or offer. Call after 10 p.m., John Klapac 493-5563.

FOR SALE: Sears Telecaption decoder, used, excellent cond. \$150. Also original Chinese paintings on silk, collector's items: (1) "The 4 Seasons"—set of 4 paintings, \$250/set. (2) large "landscape" painting, several feet long, \$225. Call Chun at x5445 or 459-1192 (TDD) after 6 p.m.

FOR SALE: Holiday Spa Gold Lifetime Membership for two. Married couples only. Unlimited facility use. No renewal fees. Valued at \$4,300. Sell \$3,200/offer. Call x5833, ask for Rick.

FOR RENT: 1 bedroom condo, wall-to-wall carpet, washer and dryer, and all new appliances. \$480/month plus electric. Available March 1. Silver Spring/Bethesda area—one block from DC line. Call Mr. Brennenman 530-4931.

Computer Services Short Course Offerings, Spring 1985

A look at what's happening with PCs

• Computer Services will offer several short courses for personal computer (PC) users during the next several months. Details about the classes will be included in an upcoming issue of *On the Green*.

The courses will be offered about once a month. Topics will cover areas such as introduction to the personal computer, word processing, spreadsheets, data base programs, project planning, integrated software and communication.

Several users have access to the IBM Assistant Series (Write; File; Report; Graph). Computer Services plans to offer one class which will discuss those four programs as a package.

Anyone with ideas for class topics should contact the secretary in User Services at x5613 (voice) or x5616 (TDD). Persons are also encouraged to stop in HMB Room 118 or send a note to User Services at HMB Box 199.

• Listed below are several steps you can take to prepare for short courses on personal computers.

1. Go through the floppy disk "Exploring the IBM Personal Computer" contained in the *Guide to Operations* manual. Also scan the manual itself.

2. Read and complete the examples in Dr. Donald Torr's paper, "Start-up of the IBM Personal Computer XT," Oct. 31, 1984. This paper is especially relevant for XT users, but is beneficial for personal computers users too. To get a copy, contact User Services.

3. Look at the software available in the Learning Center personal computer area, Room LE60. Software and documentation are both available for several products—that is, the Assistant

Series (Write; File; Report; Graph); Easywriter; Symphony; and Harvard Project Manager.

Room LE60 is open according to the schedule posted on the door. Those times will be the same as last year but more class time will be scheduled in the room this year. Open times are approximately 10 a.m. to 10 p.m. Monday through Thursday; 10 a.m. to 4 p.m. Friday and Saturday; and 1 to 9 p.m. on Sunday. During classtime, the room, like any classroom, is not open for public use.

As documentation arrives, both software and documentation will be available in other User Areas such as B06 at EMG and Room 118 at HMB.

PC user spotlight

Dr. H. David Snyder, an associate professor in the Physics Department, has reached his first microcomputer milestone.

Using the IBM PC/XT installed in the Physics lab, Snyder has written an all-Physics program that allows students to experiment with Gauss' Law. The Gauss Law relates electric field strength to electric charge inside a surface.

Students in the Physics 211 class successfully tested the program. The program is menu-driven, which allows the user to select his options. It also allows students to draw paths and insert charges anywhere on the PC screen and then do mathematical calculations. The computed results are then displayed on the screen.

Snyder continues to update his program and is currently involved in providing the Gauss program with an option to print directly from the screen.

Spring 1985 Classes

• Introduction to VAX:

This course will introduce the student to the basic features of the VAX computer. At the end of the course, the student will be able to interact with the VAX at a beginner to intermediate level.

• Introduction to DEC-10:

This course will introduce the new computer user to the basic commands needed to interact with the DEC-10 computer. The student will learn various ways to find help on the system and will learn the definition of several computer-related terms.

• SOS Editing:

This course covers the use of the SOS editor to create and edit/modify data files and programs. SOS is the primary editor on the DEC-10 computer.

• EDT Editing:

EDT is an editor used on the VAX computer. The student will learn the difference between a screen editor and a line editor. The course covers all the basic commands needed to create, edit and/or modify data files and/or programs.

• DOCGEN:

This class discusses the capabilities of DOCGEN, which is a document processor on the DEC-10 computer. The student will learn how to format text files using DOCGEN commands. DOCGEN can be used for letters, manuscripts, reports, dissertations or any other writings.

• SYSTEM 1022:

SYSTEM 1022 is a data base management system which provides the capability to create or modify files

and print reports. It runs on the DEC-10 computer and is compatible with SYSTEM 1032 which runs on the VAX computer.

• SCSS-SPSS Conventional Statistical System:

This class will show students how to run various statistics on data while at the terminal. The course will cover setting up the necessary files and using different statistics available in the SCSS package on the DEC-10.

• Batch Processing:

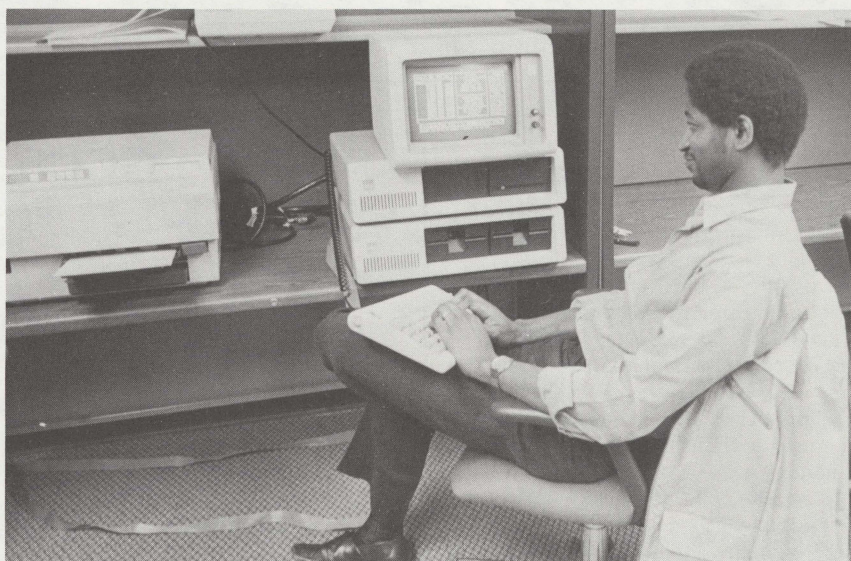

Batch processing is a way to delay the start of a computer job until some other time, a way of processing a job without tying up your terminal, as well as a way to handle procedures that you do repeatedly. This class will teach students to set up commands in a file and how to handle error processing.

• Using Tapes:

This class will cover basic information about the use of magnetic tapes. What is magtape? How do I buy tapes? Why should I use tapes? What is a back-up? How can I see what is on a tape? The student will learn tape handling commands for the DEC-10 and the VAX computers.

• VAX Orientation for DEC-10 Users:

This class is intended for the experienced DEC-10 user who is now beginning to use the VAX computer. This seminar will cover the differences and similarities between the two computers. A list of DEC-10 commands with the equivalent VAX commands will be discussed. A question and answer period will follow the discussion.

John Olumoya, a programmer with Computer Services, at work in the EMG User Room on a project to run English Computer Assisted Instruction (CAI) lessons on the IBM personal computer.

Microcomputer product guides available

Microcomputer users are reminded that Computer Services subscribes to three microcomputer product guides.

These guides evaluate various types of products in the microcomputer market. The *Datapro Report on Microcomputers*, the *Datapro Directory of Microcomputer Software* and the *Software Digest Ratings Newsletter* are available for reference in User Services.

The guides are continuously updated. The latest updates include reviews of the IBM assistant series and other integrated software, accounting programs, microcomputer plotters, communications programs, editors and IBM compatibles.

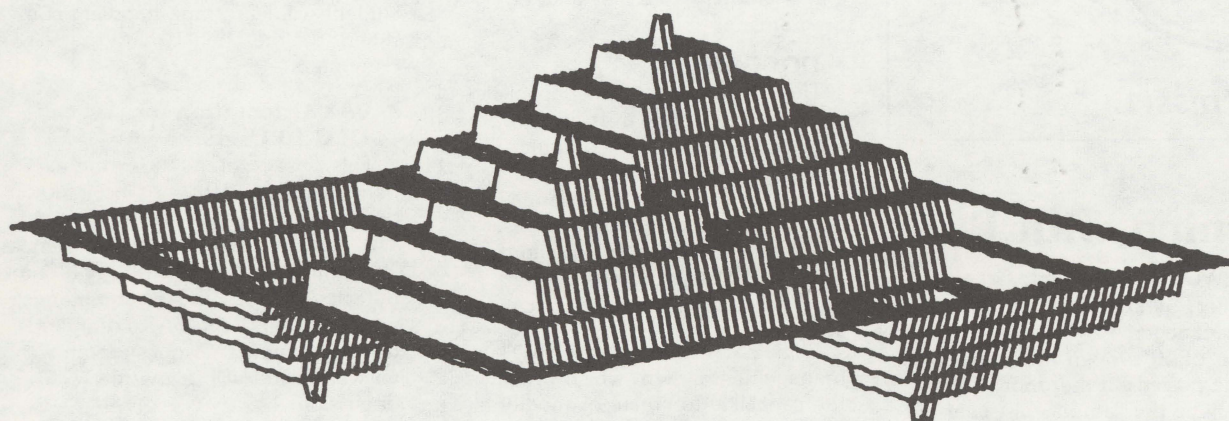

For more information on the microcomputer guides, contact Esther Gordon in User Services in Room 118 of HMB or call x5613 (voice) or x5616 (TDD).

Gallaudet College Computer Services

Short Course Schedule— Spring 1985

Class	Date	Time	Place	Prerequisites*
Introduction to VAX				
Section 1	Feb. 11, 13	2:30-4	LC-LE44	None
Section 2	Feb. 19, 21	9:30-11	LC-LE44	None
EDT Editing	Feb. 25, 27	9:30-11	LC-LE44	Intro to VAX
Introduction to SCSS	March 4, 6, 8	3-4	LC-LE44	Intro to DEC-10
Introduction to DEC-10	March 5, 7	9:30-11	LC-LE44	None
SOS Editing	March 12, 14	9:30-11	LC-LE44	Intro to DEC-10
Introduction to 1022	March 11, 13, 15	2:30-4	LC-LE44	Intro to DEC-10 and SOS Editing
DOCGEN	March 25, 27, 29	2:30-4	LC-LE44	Intro to DEC 10 and SOS Editing
VAX Orientation for DEC-10 Users	April 3	2:30-4	LC-LE44	Experience with DEC-10
Using Tapes	April 9	9:30-11	LC-LE44	Intro to DEC-10 and/or Intro to VAX
Batch Processing	April 17	2:30-4	LC-LE44	Intro to DEC-10 and/or Intro to VAX

*Equivalent experience can be substituted.

Computer Short Courses—stepping into a new dimension. (Graphic above created using DISSPLA.)

Signing Up

Computer Services is offering 10 short courses this semester. All short courses offered by Computer Services are free and open to all Gallaudet faculty, staff and students.

Because enrollment is limited, persons are encouraged to register early. Additional class sections can be added to the schedule if there is sufficient demand.

To register, fill out the registration form completely (including your supervisor's signature), check off the classes you wish to take, and send it to the secretary at Gallaudet College Computer Services in Room 118 of HMB. Registration forms should be returned by Feb. 8.

If you need to cancel your registration for a class, please call x5613 (voice) or x5616 (TDD) as soon as possible.

You are registered unless you hear otherwise. You will not receive confirmation. You will be notified if a class is cancelled or if additional sections are being offered.
